

The Program

Where possible, information received from services at the time of booking is used to plan a developmentally appropriate program based on the age, needs and interests of the child.

Our service caters for children aged 6 weeks to 12 years of age, with a focus on 0 to 5 years.

The program is developed with particular reference to the Early Years Learning Framework:

Belonging, Being and Becoming; so children

- have a strong sense of identity
- connect and contribute to their world
- have a strong sense of well being
- are confident and involved learners
- are effective communicators

A multicultural and developmental perspective is incorporated into all programming and planning to cater for the diverse needs of our community.
